Job 1421 Miscellaneous Files (Dave Williamson)

The following miscellaneous backup files were provided by Dave Williamson as part of the NCSX Closeout Note for Job 1421:

- BoltCalcs_R5.xls - Spreadsheet derived from the bolted joint design handbook and used to determine preload torque requirements shown on drawing SE140-190.
- fault_load_calc_history_2004.pdf - Email exchange w/ Dennis Strickler concerning EM fault loads for the modular coils.
- Drawing se 140-230-r1 - Unsigned revision of modular coil documentation tree drawing, current as of 9/19/08. Provided in two formats:
 - se140-230-r1.pdf
 - se140-230-r1.vsd - Same drawing in MS Visio format
