

Rev 3-a: RFD-14-024 authorized trimming the bearing plate and insulating material to ensure that no interferences will result. NCR 20519 approved this change for the B1 casting and this RFD authorizes these modifications for the remaining B2 through B6 castings. . This is considered a relatively minor change and a drawing change will not be required.

(See RFD-14-024 for details)
