Subject: Updated sequence plan
Attachments: AssySeqPlan_R9.4.xls

AssySeqPlan_R9.4.
xls (11 MB)

The attached sequence plan (Rev 9.4) contains further revisions from Bob Ellis's Dimensional Control Plan, NCSX-PLAN-HPADC-00-dE and -dF for Station 2 (1st article and production article). A number of typographical errors were also corrected in these two sections.

Changes are highlighted in red and blue and identified in the revision section on the last sheet of each section.

Bob and I have exchanged and reviewed this Revision and feel that the Sequence Plan and the Dimensional Control Plan is now synchronized.... at least for Station 2.

Tom
